IVAN INVETORSKY

the INVENTOR in

FOOD OR FAMINE?

I, Ivan Invetorsky, am the greatest genius and inventor in the entire world. No problem or task is too much for my fertile brain to solve. From all over the four quarters of our sphere, come letters pleading with me to give even the smallest time and attention to problems of human beings. At present I am unable to give you a definite address where you can send your letters to me. Seems that my landlady is not at all impressed by the fact that I live in room 23 on the fifth floor of her old walk-up house. True, I am behind in rent for three months. But as soon as my royalty check comes here, I shall pay her the money that she has the confounded nerve to claim that I owe her. Once this is done, I shall pack my belongings and move to the Milton-Blitz Hotel and take an entire floor for myself and staff.

Many letters have come to me with this problem which concerns the future welfare of our world: Can't you figure out a way to feed the mouths of the increasing population? Of course I can do that. In fact, I already have a very simple idea. No matter how many people we have there shall never be hunger or famine again! We start with my meal pills. Number one for breakfast, number two for lunch, number three for supper, number four for special affairs, and number five for picnics. You will at once retort and say that the pill idea is an old one. That you just can't get people to take pills instead of eating the foods.

Now I have figured out what is wrong. A pill does not give the image of food. Which is really necessary to enjoy a good hearty meal. So when you purchase a month's supply of these food pills for the first time, you can also get free of charge our projector and food films. Let me explain to you just how all of this works and makes eating so very pleasant.

You start with pill number three which is for supper. As you sit at the table, you push a button on the projector. It throws on the wall a picture of a plate of steaming delicious chicken soup. Now you may say how about the odor? A person also enjoys the aroma of good foods. This is not a sound projector but something entirely different. It is an-aroma projector.

You get the aroma of chicken soup as you start digesting that portion of the pill which contains the essence of chicken soup. It was difficult for me to figure out the odor of a nice sizzling steak. But then again, my brain welcomes a challenge. It functions best on difficult tasks. Of course, the easiest aroma was that of coffee. I didn't know what to do about onions. So I decided to create a special odor. It is really a blend of onions, spinach, carrots and french fried potatoes.

In those parts of the world where they have communal eating, things are simplified. A screen is put in front of the dinners. And then the projection units with the aroma attachment begin their work. Professor Homintani suggested to me that I could also have music played. Nice music is always a good aid to digestion. However I pointed out to him that all that had to be digested was one pill for one meal. So the music is optional.

Now I am well aware of the fact that this great discovery of mine will upset the entire commercial world. What will happen to the factories that make dishes? Since we do no longer need dishes, they will have to close. Then we have the factories that make knives, forks, spoons, pots, and pans. Alas, they too will close. And if you do not have pots and pans nor dishes to clean, then you will not need dishwashing machines. So those factories will also close.

Now what about our big hotels? You will no longer need chief chefs, second chefs, first bakers, second bakers, and other kitchen help. Since you have nothing to serve - the guests always will bring their food pills with them - you will not need waiters, bus boys, and head waiters. This is what bothers me.

Definitely a lot of people will be put out of work. No longer the wholesale and retail food markets. The only bright spot is that there will never be famine. Enough food for every person in this world. No matter how great our population may be! There are rumors that certain financial interests will pay me billions not to put my great idea on the market. Can my genius be used this way? I will let you know as soon as I get the first authentic offer.

AL UNSER

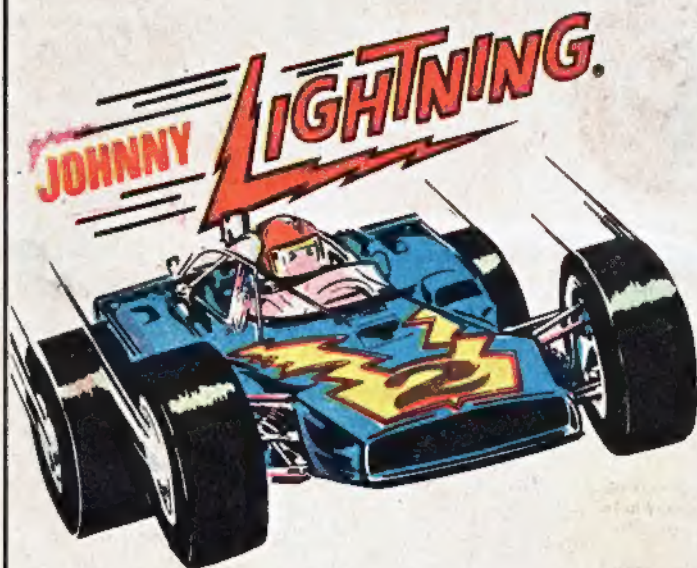

winner of the 1970 Indy 500 says:

**Boys, which are faster—
the new Johnny Lightning 500's or the Sizzlers?**

The new Johnny Lightning® 500's running on their tracks are twice as fast as the Sizzlers on their tracks or any tracks. That's a fact!

CHALLENGE A KID WHO HAS A SIZZLER—AND WIN!!!

Three reasons why you want the new Johnny Lightning 500's:

Get the fabulous Johnny Lightning cars and three fantastic new 500 sets—Indy, Le Mans, Cyclone.

1

The new Johnny Lightning 500's are faster than any other cars. In fact, they are the fastest in the world.

2

The Johnny Lightning 500's don't need any tricks or gimmicks. No batteries. No motors. No recharging. No headaches.

3

With Johnny Lightning it's your skill that matters. You make them go...control the speed...test your nerves. And the new 500's are solid...easy to set up and take apart.
